- Card Product
- Cart and checkout
- Content page with typical elements content design

Desktop. From 34 hours
Adaptive. From 45 hours

Web interface (CRM, personal account, custom systems)

A preliminary assessment is possible only after reading the terms of reference

Desktop - one layout is being developed for computer screen resolution. Adaptive - 3 layouts are being developed (one for each screen resolution: computer, tablet, smartphone).

The deadline is indicative. The time actually spent is paid, which may differ from what is stated in the price list. It depends on the complexity of the project, competently drawn up technical specifications and the number of adjustments before accepting work.
